

UPDATE: easing of the measures has been announced from 16 March.

Players >26 are allowed to train in groups of 4. These groups must not change their composition throughout the training and must keep a distance of 1.5 meters between them throughout the training.

Players <27 are allowed to train in one group and play internal games without restrictions.

General RIVM/Central Government rules:

- In case of health problems, stay at home and get tested as soon as possible
- If you have been tested, stay at home until you have received the result
- Wash your hands often
- Cough and sneeze in your elbow
- Avoid crowds
- There is a curfew from 21.00 – 04.30

Sport-specific RIVM/Central Government rules:

- Changing rooms, toilets, canteen are closed
- Parents and the public are not allowed at the sports complex
- After training, keep 1.5-meter distances from each other
- Leave the sports complex immediately after the end of the sports activity

Training:

- All fields may be used, if necessary, with multiple teams at the same time on a field. Make sure that sufficient distance is kept from each other.
- Training and/or internal competitions can take place on any day of the week.
- As long as the curfew applies, the fields are not used in the evening and the field lighting will not be switched on.
- Start/end times of training/competitions are, as far as possible, planned with a minimum of 15 minutes to avoid large 'entrances and exits'.
- In the batting cage you train with up to 2 people at the time
- Up to 1 person in the material container at a time
- Use as much solid or own material per person as possible (helmet, bat, mask, ...)
- Disinfect used material after training and competition if possible. Each team has its own set of disinfection wipes. Out of wipes? The supervisor can access the stock.

Arriving and leaving:

- Always keep right on the access path
- For those who come by bike, place your bike at the field where the training/competition takes place:
 - AF field: at the AF stand, NOT against the fences
 - Youth field: at AF stand, NOT against the fences
 - HB field: at the stands and/or gravel box, NOT against the fences
 - SB field: in the bicycle shed
- If training is done in 2 shifts:
 - First team: put bikes to the right of the grandstand as much as possible and go up and down the field via the 'home' dugout
 - Second team: put bikes to the left of the grandstand as much as possible and go up and down the field via the 'out' dugout
- After training: go straight home, do not linger (cycling back in groups is OK, if keeping 1.5 meters distance)
- Parents who bring and pick-up children by car will continue to wait in the parking lot for the player to get off/board. Then drive off immediately.
- Parents who bring children by bike do not enter the complex.
- Parents who come to pick up children by bike wait at an appropriate distance from each other in the parking lot.
- Only the youngest beeballers may be taken to their training field if necessary. This also applies to the very first training of new youth players. Pick up after training outside the complex at an appropriate distance from other parents.

If you do not comply with the (1.5 meter) rules of the association and/or the applicable (1.5 meter) rules of the government, you can be denied access to the sports complex. Damage suffered by the association as a part of your actions in violation of those rules will be recovered from you.

This protocol is shared with the coaches and trainers with the request to share this with their players/players. In addition, this protocol will also be placed on the website.
